Halloween maze

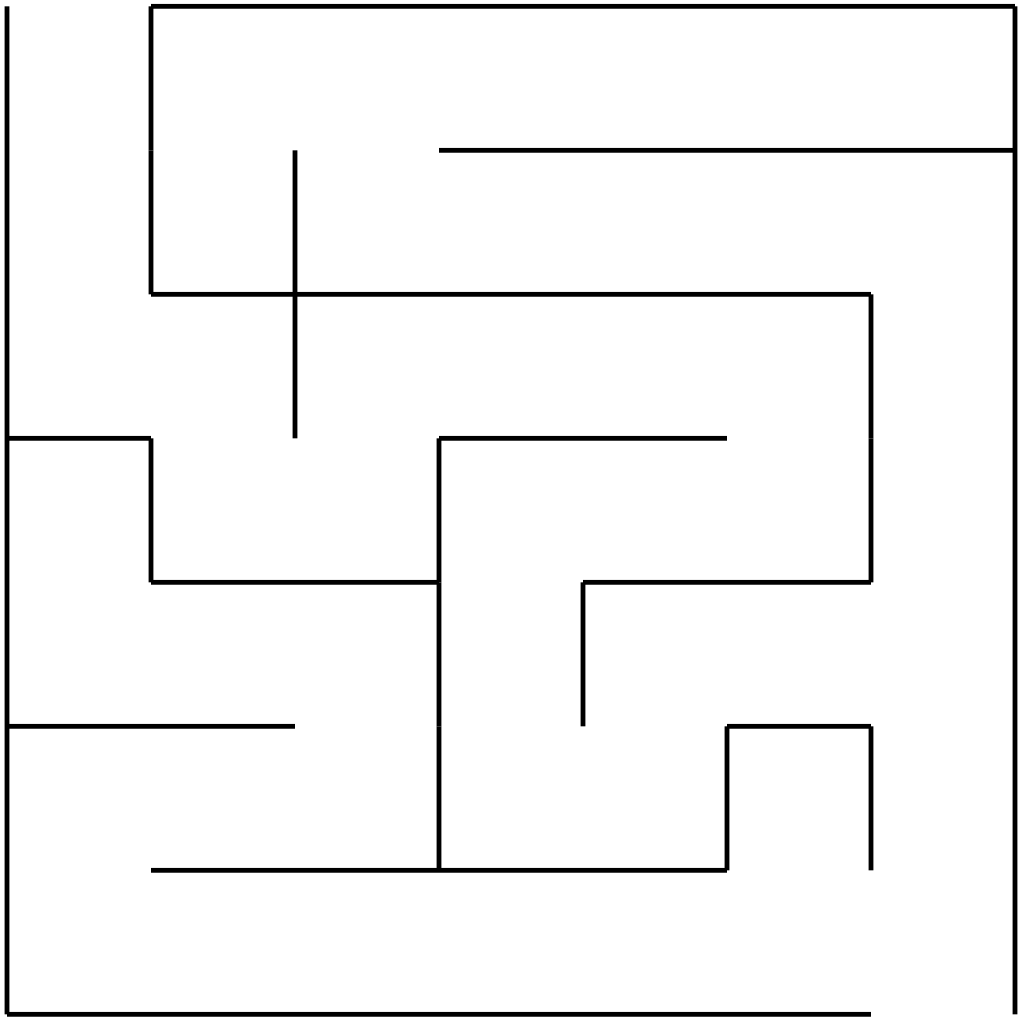

Name: _____

Help the ghost find the pumpkin.

Start at the top opening. Stay between the walls.
Try with your finger first, then draw the path with a pencil.

START

FINISH

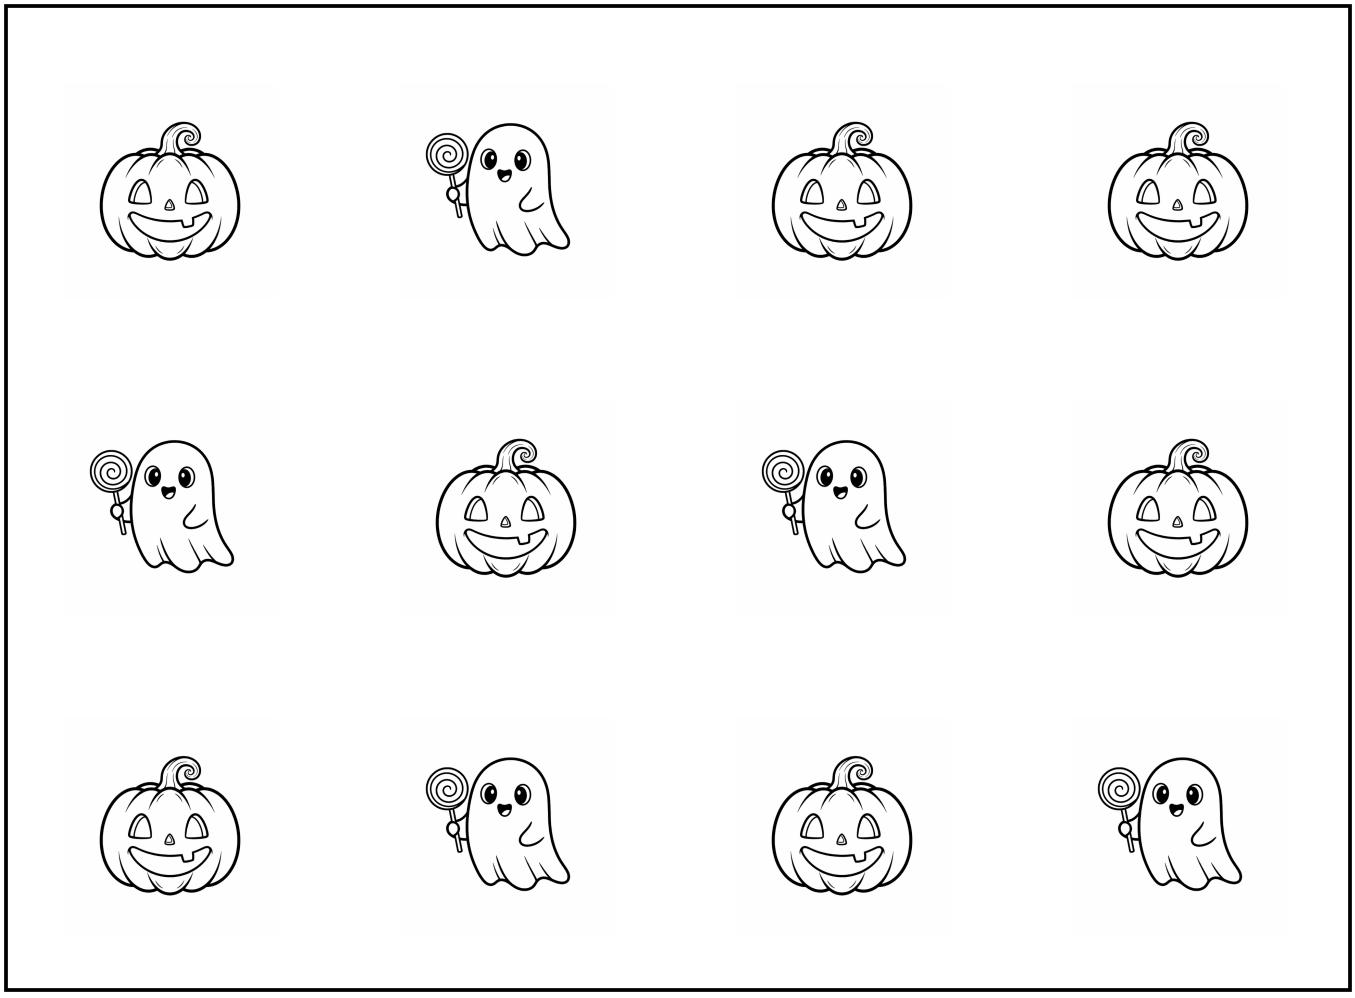

Count the Halloween pictures

Name: _____

Count only the pictures inside the box.

Touch each picture once. Write each total below.

Ghosts: ☐ **Pumpkins:** ☐

Circle the group with more: ghosts pumpkins

Extra: How many pictures are there altogether? _____

Halloween pencil paths

Name: _____

Trace from the dot to the square.

Follow each dotted path from left to right.
Go slowly. Lift your pencil whenever you need a break.

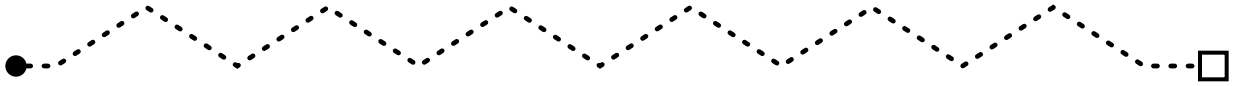

Straight path

Curvy path

Zigzag path

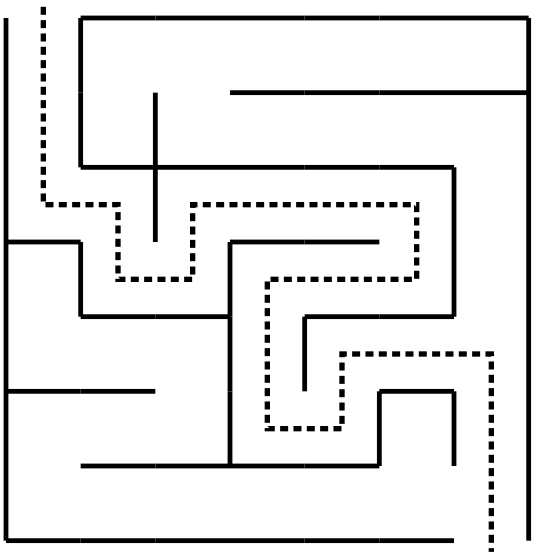

Bumpy path

Finished? Trace your favorite path again in a different color.

Answers and grown-up guide

1. Maze solution

2. Picture-count answers

5 ghosts

7 pumpkins

More: pumpkins

12 pictures altogether

Count only inside the box.

A ghost holding a lollipop counts as one ghost.

3. Pencil-path guidance

All four dotted paths run from the left dot to the right square.
There is no written answer. Encourage slow, comfortable movement; children can use a finger first and try a pencil when ready.

Print and choose a starting point

Print pages 1-3 for children. Keep this answer page for the adult.
Choose the matching US Letter or A4 file and print at 100% / actual size.
Check one copy before printing a class set. Each activity stands alone.

Suggested ages: 4-7 with adult support as needed. Start with tracing or counting; offer the maze when the child is ready for a path puzzle.

Supplies: pencil, optional crayons, and a finger for a first try.

For your own family or class. Share the page link with other adults.
