Draw a heart

Repeat-practice reference. Use the full lesson for every construction picture.

Paper, pencil and eraser.

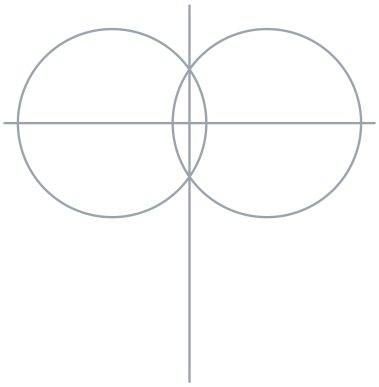

1. Set the point

Draw a light cross. The upright line ends at the heart point.

Full lesson
pp. 1

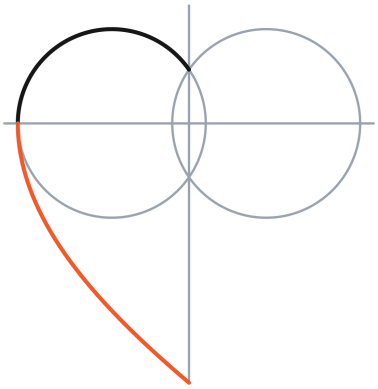

2. Match the circles

Make both circles the same size and height. Their upper crossing is the dip.

Full lesson
pp. 1

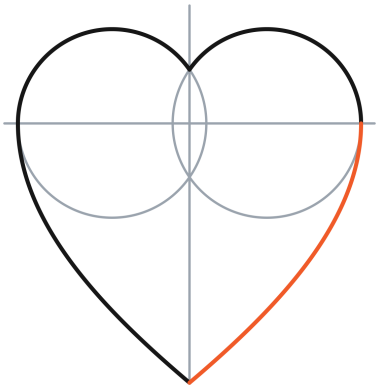

3. Draw the left side

Start at the dip. Trace around the left edge and curve to the point.

Full lesson
pp. 1–2

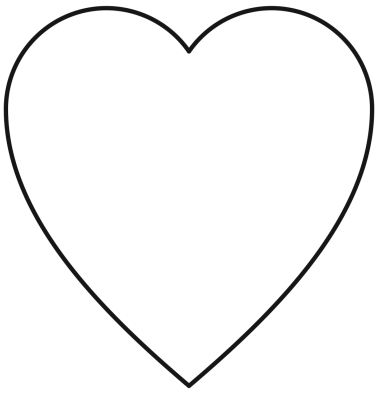

4. Draw the right side

Trace from the dip around the right edge to the same point.

Full lesson
pp. 2

5. Erase the guides

Erase the cross and unused arcs. Keep the black outline.

Full lesson
pp. 2

Orange marks are new. Gray guides are temporary. Black lines stay.
