Draw a ladybug

Repeat-practice reference. Use the full lesson for every construction picture.

Paper and pencil.

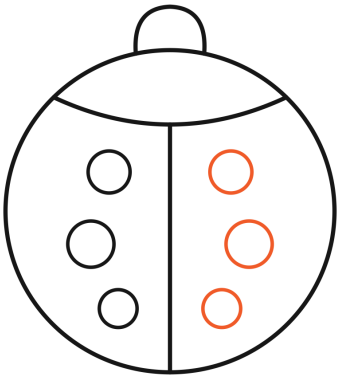

1. Divide the oval

Add the head, then draw down from the neck curve to the oval base.

Full lesson
pp. 1

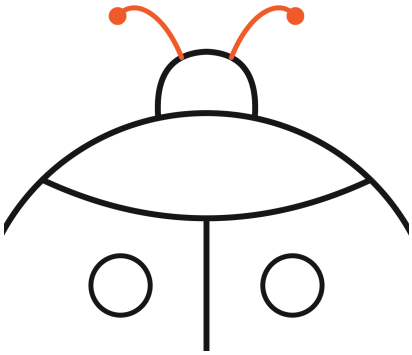

2. Space the spots

Leave room for three spots on each side of the line.

Full lesson
pp. 1–2

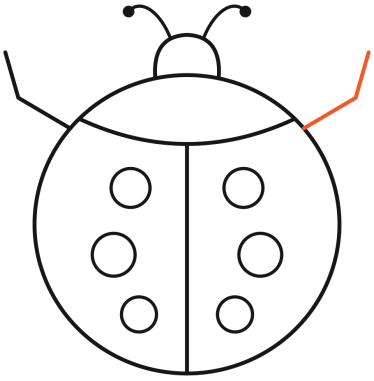

3. Draw the antennae

Curve up from the head and round both tips.

Full lesson
pp. 2

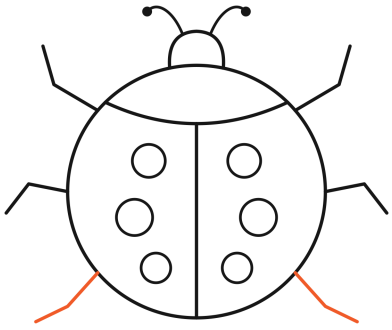

4. Pair the front legs

Start each leg at the oval edge. Bend both forward.

Full lesson
pp. 2–3

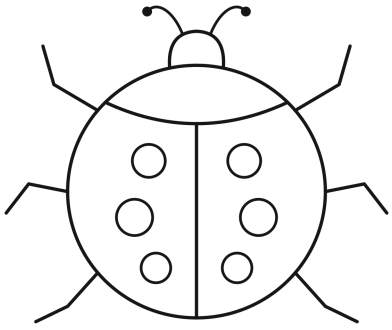

5. Pair the other legs

Place the middle legs below the front pair. Bend the middle and back pairs backward.

Full lesson
pp. 3

6. Check the joins

Count three legs per side and three spots per wing. Keep all lines.

Full lesson
pp. 3

Orange marks are new. Black lines stay. This method needs no gray guides.
