Draw a mushroom

Repeat-practice reference · Follow the detailed lesson for every construction action.

Leave space below the broad cap for a rounded stem. All outlines stay.

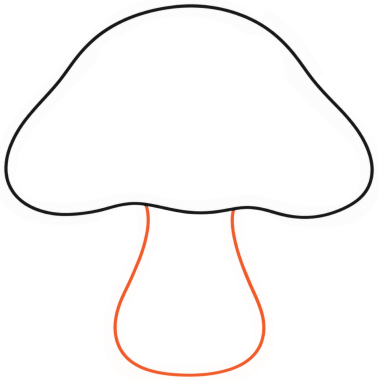

1. Draw the broad cap

Curve over a dome, round both corners and join them with a shallow lower curve.

Full lesson
pp. 1

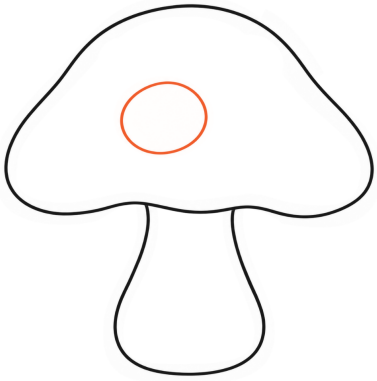

2. Join the stem

Start both sides at the cap edge, widen downward and join a rounded base.

Full lesson
pp. 1

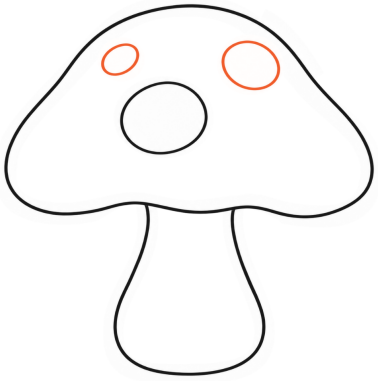

3. Place the first spot

Draw an oval inside the cap with a clear gap from its edge.

Full lesson
pp. 1

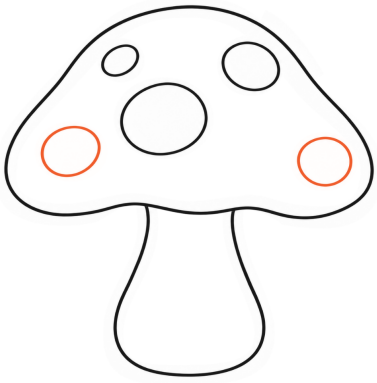

4. Add upper spots

Place two separate spots above and beside the first.

Full lesson
pp. 1

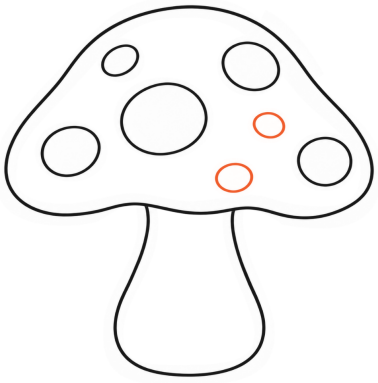

5. Fill the side spaces

Add a spot on each side without touching another spot or the cap edge.

Full lesson
pp. 2

6. Finish the spots

Add the last two spots; keep every outline and leave the stem white for coloring.

Full lesson
pp. 2

Paper + pencil. Orange: new. Black: keep. Keep every outline.
