Draw an owl

Repeat-practice reference · Follow the detailed lesson for every construction action.

Overlap a wide head oval and a smaller body oval; leave room below for feet and a branch.

1. Place head and tufts

Overlap the head and body ovals; let each tuft wedge overlap the head.

Full lesson
pp. 1

2. Finish the face

Connect tufts, cheeks, patches, eyes and beak; erase head guides, keeping the body oval.

Full lesson
pp. 2–7

3. Wrap the wings

Use leaf guides and overlap curves to connect both wings; keep their pointed ends.

Full lesson
pp. 7–10

4. Join the body

Connect the belly between the wings, then add two spaced rows of joined scallops.

Full lesson
pp. 10–11

5. Grip the branch

Build both feet from three ovals each; stop the branch edges behind the toes.

Full lesson
pp. 12–14

6. Clear the final guides

Erase the body oval and right-foot ovals; retain the belly, wings, feet and branch.

Full lesson
pp. 14

Paper + pencil + eraser. Orange: new. Black: keep. Gray: erase named guides only.
