Drawing sheet · Steps 1–4

Draw a penguin

You need paper and a pencil. Draw freehand; your lines do not have to be perfectly even.

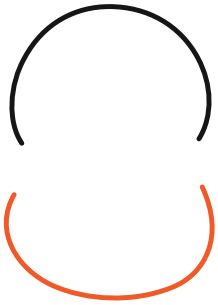

Orange / light: add these Dark: already drawn Draw with your pencil.

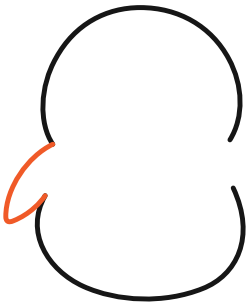

1 A broad, round head

Draw a wide upside-down U for the head. Round the cheeks and leave the bottom open.

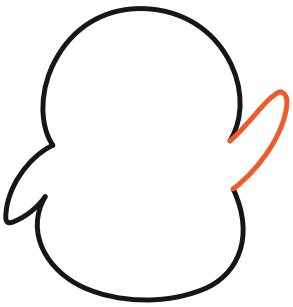

2 A short, plump body

Below it, draw a short, wide U for the body. Leave a gap on each side for the flippers.

3 The low flipper

From the top of the left gap, curve out and down to a soft point. Curve back to the bottom of the gap.

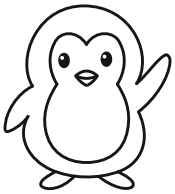

4 The waving flipper

From the top of the right gap, curve up and out. Round the tip, then curve down to the bottom of the gap.

Draw a penguin

Keep adding to the same drawing. Light orange marks show the new parts.

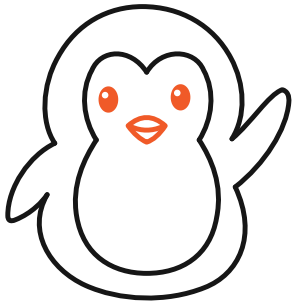

Orange / light: add these Dark: already drawn Draw with your pencil.

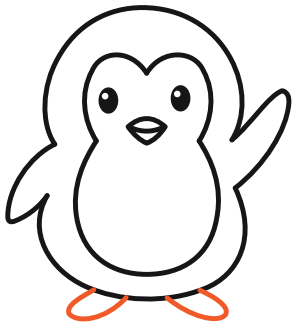

5 The face and belly patch

Inside the head, draw two cheek curves that meet in the middle. Join their lower ends with a big U around the belly.

6 The eyes and smiling beak

Draw two oval eyes and shade them, leaving a tiny white spot in each. Add a rounded diamond beak below them and a short smile inside.

7 Two rounded feet

Add two rounded feet pointing outwards. Start and finish each foot on the bottom edge of the body.

Your penguin is ready.

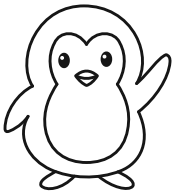

Choose a color for the beak and feet, then draw a place for your penguin to stand. Draw your own picture on the next page.
