Draw a puppy

Repeat-practice reference. Use the detailed lesson for every construction action.

Start with light guides; leave room beside the tilted head and below the body for ears and paws.

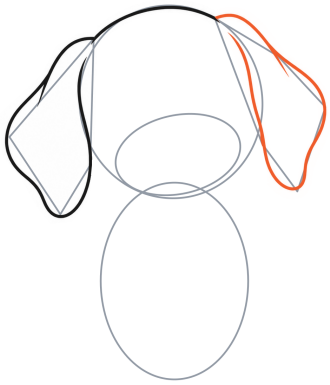

1. Place head and body

Tilt the head above a narrower body. Place the muzzle inside the head; leave room for ears and four paws.

Full lesson
pp. 1-2

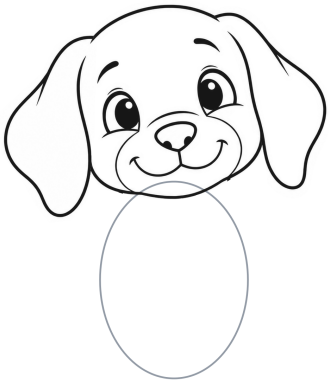

2. Round both ears

Round each hanging ear beside the face. The right ear starts and ends higher with the head tilt.

Full lesson
pp. 3-4

3. Finish the face

Follow the tilt for both eyes. Add the nose and smile, then erase only the face and ear guides.

Full lesson
pp. 5-7

4. Round the front paws

Keep a narrow gap between two broad paws. Close each paw and stop its toe curves inside.

Full lesson
pp. 8-9

5. Place the back paws

Keep the back pair slightly higher. Stop each hidden paw edge at the front leg; never draw through it.

Full lesson
pp. 10-11

6. Join tail; clear guides

Join both tail edges behind the haunch. Erase gray body, leg, paw, haunch and tail guides; keep all black marks.

Full lesson
pp. 11-12

Paper + pencil + eraser. Orange: new. Black: keep. Gray: erase named guides only.
